As per the student handbook, the student's teachers may tell the student the approximate material and pages to be covered. Detailed and specific assignments will be made available only if such assignments are already prepared for all the students in the class. When the student returns to classes, he/she will assume full responsibility for all tests and assignments. The student is responsible for completing assigned work during vacation. School work that is requested in advance will be due the day the student returns to school from the planned vacation. No academic credit will be granted for vacations. Students are expected to make up all missed work. Failure to complete assignments in the established time frame may result in an incomplete grade and possible failure of the course(s).
